FOR POLYUREA &
POLYURETHANES**

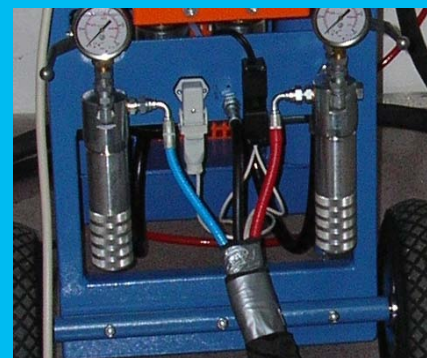

AD 180 POWER

FUTURA EUROPE

**SPRAY MACHINES, HOSES, GUNS
AND ACCESSORIES COMPLETELY
MADE IN ITALY**

TECHNICAL DATA

- Air motor (requested air compressor 40 m³/h air out- put)
- Power factor 1-20 (at 6 bar = 120 bar, at 7=140 bar)
max pressure valve calibration at 7.2 bar
- Fix ratio 1: 1 by Volume
- Max Output 9,00 l/min.
- Heated hoses "FUTURA" 17,5 meters (50 feet)
- Electrical power req. 5,0 Kw.
- Transformer 2000 VA. Out-put 40 V
- Supplementary valves for quick discharge, recycling and cleaning.
- Output filters
- High efficiency separate heaters.
- Suction material lift with filters for big drums (200 liters) medium (60 liters) and small drums (20 liters).
- Electric box with separate temperatures control.
- Separate thermoregulators, temperatures selection 0- 80°C.
- Stroke counter = 141 cc each
- Wheels for easy moving.
- FUTURA FT3 Spray Gun
